Extra Images	\$12 per 250 images	

This plan sends all images in the native full resolution

MULTI-CAMERA PLAN with Pay-As-You-Go Data

\$4 per month per camera paid annually (\$48) and \$10 per 1000 standard images. Includes 100 starter images with purchase of plan.

This plan shares images with all your Tracks cameras so you don't need to purchase separate data plans for each camera.

This plan will typically have an overall lower cost because you only pay for images taken, whereas other plans (from us and our competitors) you pay for images whether they are taken or not. For example - lets say you have 4 cameras that take 10,000 images in a year. The standard plan would require the 800 image plan or greater with an annual

OPTIONAL FOR ALL PLANS: EMAIL & TEXTING - \$1 per Month for up to 5 destinations.
